- Eighth United States Army Commendation Medal (Aug 2023)

EXPERIENCE

KBFG Securities America Inc. – New York, NY

Jun 2026 – Current

Research & Brokerage Intern

- Supported institutional research for the Alpha Strategy team by aggregating 15+ sources (Bloomberg, Fed, IMF, BIS, OECD, Bank of Korea) into 55+ visualizations covering forward rates, credit spreads, and macro trends
- Evaluated 40+ U.S. active equity managers across performance, regulatory, and operational criteria for a ~\$350M sub-advisory mandate feeding a Korean HNW wrap product, under SEC and bilateral compliance frameworks
- Analyzed prediction market platforms (e.g., Polymarket) and alternative data sources on retail finance gamification, informing a global investment strategy report on KOSPI value-up reform and AI-driven semiconductor trends

Kenan Institute of Private Enterprise – Chapel Hill, NC

Jan 2026 – May 2026

IT Intern

- Administered Salesforce CRM database containing 25,000+ global business contacts across international markets, processing and categorizing inbound data queues to maintain database integrity and accurate record classification
- Identified and resolved 7,777+ data inconsistencies across 25,000+ Salesforce records by reconciling legacy Excel datasets with newly integrated information, reducing reporting errors by ~30% through standardized validation protocols

TP-Link – Seoul, Republic of Korea

Jun 2024 – Jul 2024

Finance Intern

- Managed budget tracking and financial documentation for a \$100K+ operating budget, maintaining accuracy across income and expense records in coordination with cross-functional units
- Analyzed sales and income data from 20+ online platforms to develop 3 to 12-month sales forecasts, collaborating with cross-functional teams to optimize revenue during off-peak and peak seasons
- Communicated directly with customers, domestic and international suppliers, and logistics partners to resolve returns and delivery issues, ensuring smooth coordination across the distribution chain

PROJECTS

Brady Corporation (BRC) LBO Financial Model – Chapel Hill, NC

Jan 2026 – Feb 2026

- Constructed a \$5.1B take-private LBO model, structuring a \$2.25B (44%) equity contribution and ~8.2% annual EBITDA growth, utilizing 16% fixed-rate hedging to mitigate potential interest rate volatility
- Underwrote a 20.1% IRR and 2.5x MOIC, projecting sustainable Gross Margin recovery (53.0% → 55.9%) and SG&A optimization (29.0% → 27.2%) via digital transformation and operational supply chain efficiencies

U.S. NAJNAT Mega-Cap Fund Equity Portfolio Simulation – Chapel Hill, NC

Aug 2024 – Dec 2024

- Designed and simulated an equally weighted portfolio of six U.S. mega-cap stocks (Nvidia, Apple, J&J, Nike, Amazon, Tesla), achieving a 195.91% cumulative return since June 2020, more than 2× the S&P 500 benchmark
- Constructed the efficient frontier and tangent portfolio using Excel simulations, identifying an optimal asset mix (e.g., 60% Nvidia, 35% J&J) with a monthly expected return of 3.73% and volatility of 9.46%
